

CURRENT AND FUTURE LEO/GEO/R&D SATELLITE TABLES

In response to CGMS permanent action 01 and for inclusion in the final CGMS-38 meeting report

This Working Paper contains the current and future leo, geo, and R&D coordinated satellite tables to be included in the final CGMS-38 report (following correctness confirmation at the meeting).

The Working Paper confirms the satellite status for EUMETSAT.

Unless already done, other CGMS Members are requested to verify the input and provide feedback as necessary to ensure correctness of the tables.

Action/Recommendation proposed:

Members who have not yet revised the tables are kindly invited to provide feedback on the data including any updates of their respective satellites to the CGMS Secretariat (sarah.grieu@eumetsat.int and anne.taube@eumetsat.int)
