

Consultative Meeting on High-Level Policy on Satellite Matters (CM-14)

Fourteenth Session
Geneva, WMO HQ, 23 June 2018

Background

- Established by WMO Congress XIV in 2003 as a mechanism for discussions between the Meteorological and Hydrological Services and the environmental satellite communities.
- To discuss matters of mutual interest between the satellite operators and the WMO user communities and to ensure a better understanding of issues.
- To agree on advice and guidance to be forwarded to the WMO Executive Council and/or satellite operators.

Agenda

- 2030 Agenda and WMO WIGOS
 - UNISPACE+50 and Space 2030
 - WIGOS Vision 2040
 - Space Agency Visions
- Physical Architecture of Climate Monitoring from Space
- Data Exchange Policies
 - Update on WMO Data Policy
 - WMO View on Public-Private Partnerships
